

LIMBTM GALLERY

Create & manage your digital library
Publish & share your digital collections

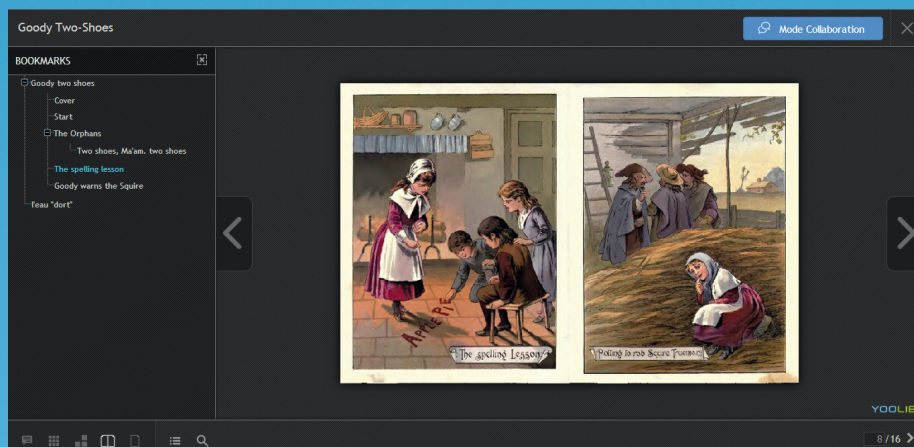

THE EASIEST AND FASTEST WAY TO BUILD AND SHARE YOUR COLLECTIONS ONLINE

LET THE WORLD DISCOVER YOUR COLLECTIONS

With LIMB Gallery advanced viewer all contents are visible on any device including tablets and mobile phones. The content viewer includes:

Page flipping view for books |
Mosaic view | Table of content
| Search inside document |
High speed deep zoom | Share
content (email, social networks)

Powerful search engine

Patrons can easily browse and search content with a powerful search engine including:

- > Facetted search dynamically created with the Metadata
- > Language based fuzzy search (spelling mistakes, similar sounds and alternative suggestions)
- > Full text search with keyword highlighting in the entire collections

Discover content in multi dimensions

With LIMB Gallery add serendipity to your patrons discovery experience. Content can be seen as a detailed list, plotted on a geographical map for geo-localized content or plotted on a timeline.

Manage your collections

LIMB™ Gallery provides a fully featured online back office to manage your collections easily using a simple web browser:

- > Upload single or multiple contents as a batch
- > Create, update, enrich metadata and records
- > Organize your content in categories and collections
- > Create eye catching virtual exhibitions

Promote your collection

- > Connected with social networks:
Each record can be shared by a click on social medias
- > Content is quickly indexed by search engine with advanced built in SEO technologies
- > Detailed statistics to measure your traffic
- > OAI PMH server to supply your metadata to third party aggregators (National Libraries, Europeana, DPLA etc)
